

Nazi-Propaganda? Into the waste paper bin!

Dear neighbours,

In the last few days, Nazis from the „III. Weg“ have been around the area, posting flyers into many letterboxes. We won't put up with this! **Their inhuman propaganda has no place here in Neukölln, or anywhere else!**

The „III. Weg“ is a neo-Nazi, pseudo-party whose members are supporters of National Socialism. Many of them were previously organised in Nazi comradeships which have since been banned. Its members are often militantly active. Where they appear, they aim to create a climate of fear. Their flyers spread anti-Semitic conspiracy theories about the Covid-19 pandemic and fantasise about the alleged danger of „the Antifa“. Many see this the other way around: Nazis pose a grave danger in Neukölln, a fact not only known due to the series of attacks against migrants and organisers on the left.

If you have also received flyers, you see people carrying these flyers or you notice incidents where Nazis are active in the neighbourhood, you can report them (see overleaf). Talk to your neighbours about it and throw these flyers where they belong: In the waste paper bin!

Solidarity greetings, your neighbors
